GENEVA, Apr. 26.—German newspapers are taking a more serious view of the German-American situation and say Emperor William is expected to return to Berlin from the general headquarters. In the meantime all Americans attempting to leave Germany by way of Switzerland are encountering difficulties. Many of them are detained at Constance on the Baden frontier which has been closed.

BERLIN, Apr. 26.—Public opinion respecting the American note is divided. One faction, represented by

Count Von Reventlow, the naval expert, according to the Tages Zeitung continues to assert that it would welcome a breach with a feeling of relief. The attitude of the others is indicated by a remark of Theodore Wolff, editor-in-chief of the Tageblatt, who dwells on the prospect of a severance "with a feeling of relief."

Tageliche Rundschau says: "The prospects for an understanding is scanty."

Chancellor Von Bethmann Hollweg and Admiral Von Holtzendorff departed today for headquarters to consult with the kaiser regarding the reply to the American note.

JEWELS FOUND  
ON A SUSPECTALLEGED BURGLAR HELD BY POLICE  
AWAITING IDENTIFICATION

Marco Fort, aged about 34, is held by Chief of Police Evans on suspicion of being implicated in a number of robberies in Esmeralda and Clark counties. He was detected by Engineer George Nisbet, in the change room of the Jim Butler mine yesterday morning. Before Nisbet could reach him the intruder grabbed a lunch bag and darted for the door making his escape. Nisbet instantly called the police and, while waiting arrival of the officers directed his topman to follow the fugitive. The latter ran south on Bryan avenue making for the hills and was easily overtaken by Chief Evans.

Fort was loaded with all kinds of jewelry including several watches, chains, bracelets and charms which he could not account for. In one of his pockets was a poli tax receipt from Clark county signed by Sheriff Gay. An inquiry sent to the latter brought the intelligence that a store at Good Springs had been entered a short time ago and a quantity of jewelry abstracted. Another message from Sheriff Ingalls, of Goldfield, stated that a recent robbery there had resulted in an Elk's charm and gold watch being taken.

Fort is supposed to have entered the change room of the Butler for the purpose of robbing the clothing of the employees and would have succeeded had it not been for the vigilance of the engineer who displayed remarkable presence of mind in not treating the stranger's visit lightly.

LONE MOUNTAIN SHIPS  
RICH SILVER LEADTONOPAH MEN SHIPPING ORE  
THAT WILL RANK WITH THE  
BEST HIGH-GRADE

The first shipment of a carload of silver-lead ore from Lone Mountain is being loaded at McQueen station on The T. & G. railroad which is likely to become something more than a mere sidetrack. The property sent out the ore is owned by Walter Peterson, the locator, Ed. Uren, Chas. J. Wittenberg and Sherman Lock. The first pick was stuck in the ground less than four months ago and at present there is about 100 tons on the dump waiting for teams to freight it down to the tracks, a distance of seven miles. The values are around \$100 a ton and it is expected that regular shipment will be sent out every week.

Lone Mountain was one of the most promising sections in the country twenty years ago when several companies of importance operated there but, with the decline in lead the field was abandoned until last fall when prospectors opened some excellent leads.

TROOPS TO STAY  
ON VILLA'S TRAILNO RECONSIDERATION OF THE  
ORDERS FIRST ISSUED TO  
GENERAL PERSHING

WASHINGTON, D. C., Apr. 26.—The German situation is regarded as having passed the crucial stage and now the cabinet is absorbed in contemplation of what is going to be the policy in Mexico. General Scott, the man who is famous for his medicine talks and peacemaking appeals has recommended that the troops now across the Rio Grande, not alone be permitted to remain on the trail but be authorized to proceed as far into the interior as they feel necessary to penetrate until the object of the punitive expedition is attained. Moreover, when it comes to a showdown, Carranza will be notified that the American people will not tolerate any further interference with the transportation of military supplies. If any objection is offered General Funston will be authorized to seize and operate the railroads to furnish facilities for shipping ammunition and foodstuffs to the troops at the front.

This is considered the equivalent of an ultimatum. The order may be amended but this is what Gen. Scott thinks should be done if the honor of the nation is to be maintained.

RAID ON THE RESCUE  
BY SHORT BROKERSFAKE REPORTS SENT OUT TO  
ENABLE SHORTS TO COVER  
THEIR TRADES

A bear raid on Rescue, engineered by short interests, caused a severe break in the stock this morning. During the night the wires were kept hot with stories to the effect that Raise No. 4 had pierced the cap rock and that a drill sent into the face of the east drift had passed out of ore. There is no foundation for either story. The raise is up 36 feet and still in ore without any sign of diminishing. So far as drilling in the face of the drift nothing of the kind has been done and therefore that story also is manufactured from whole cloth.

The effect of the night wires caused heavy selling the first two lots representing 20,000 shares selling for 44 cents. As soon as the deception was discovered the price rallied and at noon sales were made at 46.

DUBLIN PUT UNDER  
MILITARY CONTROLTroops Pouring in From Belfast  
and England to Check  
Irish Rebels

(By Associated Press.)

LONDON, Apr. 26.—A TELEGRAM FROM BARON WIMBOURNE, GOVERNOR OF DUBLIN AND LORD LIEUTENANT FOR IRELAND SAYS: "THE SITUATION IS SATISFACTORY."

SECRETARY ASQUITH INFORMED THE HOUSE OF COMMONS THAT DRASTIC ACTION TO SUPPRESS THE MOVEMENT IN IRELAND IS BEING TAKEN. OUTSIDE OF DUBLIN THE COUNTRY IS TRANQUIL. HE SAID STEPS ARE BEING TAKEN TO ACQUAINT NEUTRAL COUNTIES WITH THE REAL SIGNIFICANCE OF "THIS MOST RECENT GERMAN CAMPAIGN."

(By Associated Press.)

LONDON, Apr. 26.—Martial law has been proclaimed in the city and county of Dublin, according to an announcement in the house of commons. The troops have arrived at Dublin from Belfast and England. Liberty Hall, headquarters of the Dublin rebels and Stephens Green captured by them have been occupied by the militia, Secretary Asquith announced.

Lord Wimbourne, governor general of Ireland is a prisoner in the hands of the Sinn Fein revolutionists whose bold stroke in capturing the post office has aroused the gravest anxiety in London. The uprising was greater and better planned than first supposed. The rebels were well armed and their movements were directed by a master hand. Marked discipline was a feature of the outbreak which was so well conceived that the authorities did not have an inkling of the conspiracy until the insurrection actually took place. In proof of this it is heralded that the garrisons in Ireland had been depleted by calls from the western front in France and that only a nominal force remained as home guards.

There is no doubt but that the slowness of war were furnished by German agents as the revolt was timed for the arrival of the landing force that was repulsed with the capture of Sir Roger Casement. Lord Wimbourne will be held as a hostage for the safe return of Casement.

The regiment has been over recruited and the officers are engaged in sifting out the raw material so as to secure none but the best.
